TECHNICAL COURSES

1. Post Graduate Diploma in Advanced Computing (PG-DAC)

CDAC-Hyderabad

03/2022 - 09/2022

The Centre for Development for Advanced Computing (CDAC) is the main research and development group for the Department of Information Technology (DIT) and the Ministry of Communications and Information Technology (MCIT) in India

Skills:

- Capable of resolving the technical issues through debugging, research, investigation
- Understanding of Agile development methodologies
- Good knowledge on SQL, PL/SQL and Hibernate/JPA
- Knowledge of Spring Framework and markup languages like XML.
- self-motivated and driven, with strong analytical, problem solving, and communication skills

2. Oracle Certified Associate Java Programmer (OCAJP) 1Z0-808

(course completion certificate offered by Udemy)

01/2023 - 01/2023

An Udemy course that conduct a thorough investigation and analysis of Functional Programming, Stream API's, Java reflection API's, Date and Time API's, Annotations and deep diving into migration of Java Apps.

SKILLS

JAVA (8 and above)

HTML5

JDBC

JSP

CSS

Hibernate/JPA

MVC

Good knowledge on SQL, PL/SQL

Knowledge of markup languages like (XML)

Spring Framework

Understanding of Agile development methodologies

PERSONAL PROJECTS

Airline Reservation System (07/2022 - 08/2022)

- This Air line Reservation System project is a full - stack web application built with Java ,React JS and Spring Boot the database is MySQL. The application provides functionality to allow users to book flights and manage reservations . The backend is built with Spring Boot and provides a REST ful API to serve the front end , which is built with React JS . The application will be secured with Authentication and provide other features such as searching for flights, managing reservations, and more .

EXPERIENCE & CERTIFICATIONS

1.Master Data Management for Beginners (from TCS)
(10/2022 - 10/2022)

2.Agile Methodology Virtual Experience Program
(offered by Cognizant) (02/2023 - 02/2023)

(A course offered by Cognizant that covers concepts of Agile methodology like Waterfall vs Agile, different user stories, role assignments and Ceremonies, Agile Tools and Concepts and Agile Curve Balls)

3. Developer Virtual Experience Program (offered by Accenture) (02/2023 - 02/2023)

(Its a program initialized by Accenture, India that deep dive into -Define technical requirements Design changes to an existing architecture Scale on-premise system infrastructure to the cloud Reading and understanding code Attention to detail Debugging algorithms Unit testing User Acceptance Testing - UAT Security maturity assessment IAM policies and permissions Securing the software development lifecycle (SDLC)
